## Earnings Credit Rate Tier: (Based on Average Collected Balances)

Earnings Credit Rate Tier
The Earnings Credit Rate tier will only be applicable to the Analyzed Checking Product. The rate will be applied to the account's monthly average balance and earn operational credits to offset cash management fees. If the Earnings Credit is greater than the monthly cash management fee, then the respective account will not incur a cash management fee.

| Deposit Amount | ECR \% |
| :---: | :---: |
| $0.00-100,000$ | 0.30 |

## Truth-in-Savings Disclosures

Except as specifically described, the following disclosures apply to all of the accounts named above. Each account holder agrees to the terms set forth on this Rate and Fees Disclosure and acknowledges that it is a part of Potlatch No. 1 Financial Credit Union's (P1FCU) All About Your Accounts Disclosure.

RATE INFORMATION The Dividend Rate and Annual Percentage Yield (APY) on your accounts are set forth above. The annual percentage yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For dividend- bearing accounts, the dividend rate and annual percentage yield may change monthly for regular business share accounts, business share draft accounts, and business money market accounts. For all P1FCU certificates, the dividend rate and annual percentage yield are fixed and will be in effect while the balance of your account remains in an applicable balance range or for the term of the account, whichever is less. Once a balance range is met, the dividend rate and annual percentage yield for that range will apply to the entire balance in your account while your balance remains in that balance range. The annual percentage yield is based on an assumption that dividends remain on deposit until maturity. Dividends will be paid quarterly on certificate accounts. A withdrawal will reduce earnings, as will any request to delay the crediting of dividends. The regular business share accounts, business share draft accounts, and business money market accounts are tiered rate accounts. The stated dividend rate and annual percentage yield for a specified tier balance range will apply to the entire balance in your account while your balance remains in that balance range.

NATURE OF DIVIDENDS Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period. The dividend rate and annual percentage yield are the prospective rates and yields that P1FCU anticipates paying for the applicable dividend period.

COMPOUNDING AND CREDITING Dividends will be compounded and credited as set forth above. The dividend period for each account is set forth above. The dividend period begins on the first calendar day of the period and ends on the last calendar day of the period.

## Truth-in-Savings Disclosures Cont.

ACCRUAL OF DIVIDENDS Dividends will begin to accrue on both cash and non-cash deposits (e.g. checks) on the business day you make the deposit to your account. For regular business share accounts, business share draft accounts, and business money market accounts if you close your account before accrued dividends are credited; accrued dividends will not be paid.

#### Abstract

BALANCE INFORMATION The minimum balance required to open each account is set forth above. For all dividend-bearing accounts excluding business money market accounts, dividends are calculated by the daily average balance method, which applies a daily periodic rate to the average principal in the account each day. Business money market account dividends are calculated by the daily balance method, which applies a daily periodic rate to the principal in the account each day. The stated dividend rate and annual percentage yield for a specified tier balance range will apply to the entire balance in your account while your balance remains in that balance range. The minimum balance required to open each account is set forth above. If the minimum balance is not met, you will not earn the stated annual percentage yield.

MATURITY Your certificate account will mature within the term or on the maturity date set forth on your Certificate Receipt or Renewal Notice.

EARLY WITHDRAWAL PENALTY We may impose a penalty if you withdraw any of the principal before the maturity date, or the renewal date, if this is a renewal account. For certificates under 1 year, the amount of the early withdrawal penalty is 90 days' dividends. For certificates 1 year or greater the amount of the early withdrawal penalty is 180 days' dividends. The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned on the account. It applies whether or not the dividends have been earned. In other words, if the account has not yet earned enough dividends or if the dividend has already been paid, the penalty will be deducted from the principal. At our option, we may pay the account before maturity without imposing an early withdrawal penalty when an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction or with the approval of the President \& CEO or those designated by the President \& CEO. All P1FCU certificates listed above are automatically renewable. For all automatically renewable certificates you will have a grace period of ten (10) days after maturity in which to withdraw funds from the account without being charged an early withdrawal penalty. Your certificate is nontransferable and nonnegotiable. The funds in your account may not be pledged to secure any obligation of an owner, except obligations with P1FCU.

ACCOUNT LIMITATIONS There are no transaction limitations on business share draft accounts. Transaction limitations apply to the regular business share and business money market accounts as follows: During any month, you may not make more than six withdrawals or transfers to another credit union account of yours or to a third party by means of a preauthorized, automatic, or computer transfer, telephonic order or instruction, or similar order to a third party. If you exceed these limitations, your account may be subject to a fee or be closed.

[^1]
[^0]:    ${ }^{1}$ An NSF Fee may be charged each time an item or payment is presented if the amount of money available in your account is not sufficient to cover the payment, regardless of the number of times the payment is presented.
    ${ }^{2}$ An account is considered inactive once a member has not engaged in any transactions or correspondences with P1FCU for a duration of 365 consecutive days and possesses an aggregate balance below the threshold of \$1000.

[^1]:    Funds deposited by a corporation, partnership, or unincorporated association are insured up to a maximum of $\mathbf{\$ 2 5 0 , 0 0 0}$ and backed by the full faith and credit of the United States Government, National Credit Union Administration, a U.S. Government Agency.
